

# Adobe After Effects

Create incredible motions graphics and visual effects. The industry-standard animation and creative compositing app lets you design and deliver professional motion graphics and visual effects for film, TV, video and web.

*You do not require any prior software experience in order to book for this course. You should, however, be able to use a computer at a basic level.*

## Course Outline:

- User Interface
- Saving / Importing
- Creating Projects.
- Working with Alpha Images / Channels
- Image Sequences
- Compositions
- Working with Layers
- Markers
- The Comp Panel & Timeline
- Keyframes and Animation
- Previewing
- Transforming
- Parenting
- Effects
- Creating Expressions without writing code
- Motion Tracking
- Working with Solids
- 3D Layers
- Working with Text
- Adjustment Layers
- Working with Illustrator Files
- Null Objects
- Expression Controls
- Motion Sketch / Smoother
- Pen Tool
- Motion Blur
- Paint
- Displacement
- Fractal Noise
- Liquify
- Puppet Tool
- Graph Editor
- Shape Layers
- Keying, Matting, Masking
- Shatter Effect
- Working with Audio
- Vectorize and Scribble
- Working with Cameras & Lights
- Particles
- Video Editing Tools
- Colour Management and Correction
- Working with Time
- Layer Styles
- Exporting and Rendering using Render Queue and Adobe Media Encoder

### Note:

- Learners will receive comprehensive original PDF notes and course material.
- An Adobe Certificate of Completion will be issued once the final lesson has been completed.
- An overall Certificate of Competence will be issued upon the successful completion and submission of a post-course assignment.
